

Protectus Viridis™ Concentrate

Significantly reduce the chances of infection and reduce the time and cost involved in staying protected.

protectus™ Viridis

Protectus Viridis™ Concentrate

- Long shelf life before and after dilution.
- Suitable for small and large scale operations.
- Cost Effective.
- Not classified as Dangerous Goods.
- Straight forward storage & dilution protocol.
- Water based, non-flammable formulation.
- Multiple applications.

Recommended Surface Protocol

Effective - Efficient - Economical

Available in a variety of sizes, our Protectus Viridis concentrate provides an economical solution for disinfection professionals and businesses over a broad spectrum of industries. Once diluted it has the same efficacy and advantages as our ready to use product.

Suitable for professional use our concentrate is ideal for on-site dilution, providing reduced transportation and storage costs. And its no-rinse formulation reduces disinfection protocol times. IBC's and large drums can be shipped internationally for in-country dilution and bottling into ready to use disinfection products. They are also suitable for use with automated dosing systems in large scale healthcare, mining, industrial and manufacturing operations. Smaller sizes are ideal for easy transportation for multi-site disinfecting and misting professionals.

- Reduced transportation costs.
- Dilution protocol / concentration can be adjusted to suit requirements.
- No-rinse formulation saves time.
- Two year shelf life, even after dilution.

Areas of use

For disinfection of hard surfaces and non-invasive medical devices and all other compatible surfaces. Effective on hard surfaces including: all food preparation areas, stainless steel, plastics, tiles, floors, walls, fridges, sanitary ware, renal medical devices and similar.

CE Mark Product

Viridis concentrate is also available to the medical industry as a CE marked concentrate supplied in 1000L IBCs.

Viridis Concentrate Disinfectant Microbiocidal Efficacy

Efficacy		Contact time
Bactericidal		
EN 13727	<i>Pseudomonas aeruginosa</i> <i>Enterococcus hirae</i> <i>Staphylococcus aureus</i>	1 minute
EN 13697	<i>Pseudomonas aeruginosa</i> <i>Enterococcus hirae</i> <i>Staphylococcus aureus</i> <i>Escherichia coli</i>	1 minute
EN 1276	<i>Pseudomonas aeruginosa</i> <i>Enterococcus hirae</i> <i>Staphylococcus aureus</i> <i>Escherichia coli</i> <i>Listeria monocytogenes</i> <i>Salmonella typhimurium</i> <i>Campylobacter jejuni</i> <i>Streptococcus uberis</i>	1 minute
Yeasticidal		
EN 1650	<i>Candida albicans</i>	5 minutes
